

## SALT LAKE DAILY HERALD

WEDNESDAY MORNING, JUNE 30, 1880.

THE DAILY HERALD is published every morning, except on Sundays, at the Herald Building, Salt Lake City, by the Herald Publishing Company. Subscription price \$10.00 per annum, in advance. Single copies, 5 cents. Foreign postage extra.

THE WEEKLY HERALD is published every Thursday morning, at \$2.00 a year, in advance. Single copies, 10 cents. Foreign postage extra.

ATHENS, Ga., has had its experience with a third year man from England. All American towns must have in contact with a young man, sooner or later, and he is here. The Georgia individual has just gone to jail on a four years' visit, for having killed a man. He is a remarkable case, and something out of the usual line. According to the Atlanta Constitution, he was an active member of the Young Men's Christian Association, but habitually played and drank in the billiard saloon. He appeared in Athens as a homeless tramp, but represented that he had been a major in the British Army, and was the son of an Irish peer. He was "smooth" in his conversation, and soon was accepted and accepted the position of bookkeeper in a large cotton warehouse, mingled in the best society, gambled, and finally forged a check for \$25 on his employer. It is said to keep an eye on those fellows who mysteriously appear in a town, with wonderful tales of their high social origin.

It is said the republicans, realizing the necessity of preventing the democratic success in New York next November, are contemplating a change in the method of choosing presidential electors in that state, giving the electors in the hands of the congressional districts. The telegram bringing the news of the proposed change, says the republicans would thereby get 17 of the 35 electoral votes of the state, but they would probably obtain even more than that number, as they now have 21 of the 35 congressmen. It is supposed that New York state, which is democratic by about 40,000 majority, is distressed in the interest of the republicans, the latter always controlling the legislature and the congressional delegation. The plan to steal New York from the democrats may possibly be successfully operated, though it would require all the courage the republicans could muster to attempt the thing. But should it be carried through the party will sooner or later be sorry for it. Such things are certain to react, and their vengeance is usually terrible.

Once the passengers on the ill-fated Narragansett, that went down in the collision on Long Island Sound a few nights ago, said to the men who were trying to save the unhappy people: "Never mind me, I'm an old woman, save the young." That lady's name should go down to posterity as one of the bravest heroines that America has produced. Her noble self-sacrifice, her thoughtfulness for others, stand out more prominently in contrast with the conduct of others of the unhappy company. Strong men beat off with the bare hands the hands of dying women who were clinging to the boat sides and piteously begging to be taken in; stout young fellows heaved not the cries of the weak and helpless, but in their struggle to save themselves heartlessly thrust aside and cast off women and children. Appeals to their manhood were of no avail, as they possessed no manhood. The bravery of the noble old lady, who wanted the younger people saved, would have preserved many lives on that ocean had it been apportioned among the strong hands that carried hearts of the panic-stricken men.

It looks as if there were to be an epidemic of elephantine disasters. Ten days ago the Narragansett's fatal catastrophe occurred, and within the succeeding twelve hours two other boats came in collision, one of them being wrecked only a few miles from the Narragansett-Somerset horror. On Monday evening, occurred the most terrible affair of the season, the sinking of the Narragansett. Our telegrams also tell of another collision at New York yesterday morning. An excursion steamer, crowded with Sunday school children, had just left the dock, when she was run into by another vessel and had barely time to return to the wharf and unload her precious freight before sinking. The loss of life from the Narragansett and Somerset catastrophes must have been over one hundred, though it will never be known just how many perished by reason of those "accidents." In one way these casualties will result in good, though the same thing might have been brought about without the terrible cost in life. Steamboat travel, for a time at least—until the public forget the occurrences of the past ten days, and companies grow negligent again—will be much safer than it has been. The late lessons, let us hope, will last a generation at least.

**The Walk.**  
San Francisco, 29—Closing score at 11 p.m.: Scott 505; Reid, 500; Eaton, 471; Callahan, 450; Edwards, 451; Guerrero, 446; Dorian, 434; Roerich, 401. This closes the original match, but Maqui has made arrangements with the leading pedestrians to continue five days longer, those remaining on the track to compete with no fresh contestants, each of whom is handicapped 100 miles. Continuance to begin at once. Among the fresh contestants are McIntyre, Murdoch, and others of less note.

## LATEST TELEGRAMS.

THE INTERNATIONAL SHOOT.

The Americans Win.

Never Such Scoring Before.

Dolly Mount, 29—Eight hundred yards range, American, 436; Irish, 436.

The weather, early this morning, was very threatening, but towards 11 the wind shifted to the west. It then became cloudy, but not threatening, the air was tolerably clear and soft.

There was a considerable display of American and Irish shooting on the way hither from Dublin. Houses are decorated with evergreens, welcoming notices, etc. The Irish team first on target one and two in squads, then John Rigby, Wm. Rigby and Miller on target No. 1; Fenton, Joynt and Young on target No. 2.

The Americans fire on target No. 5 and 6; Rathbone, Farrow and Brown on target No. 5, and Clark, Cotton and Fisher on No. 6. A detachment of 500 royal Irish constabulary preserve order. The Irish Rifle Association, yesterday, resolved that no member as such join Sir Henry Hall's team at Wimbledon.

The firing at the 800 yard range began at 12:30. The wind then moderated and the conditions for shooting became more favorable.

900 YARDS.

Americans—Clark, 75; Scott, 3 in 1st, 4 in 7th, 12th, 13th and 14th, 69; Farrow, 4 in 9th and 12th, 73; Rathbone, 75; Farrow, 4 in 3rd and 4th, and 8 in 14th, 71; Brown, 4 in 1st and 8th, 73. Total, 436.

Irish—John Rigby, 4 in 13th and 14th, 71; Miller, 4 in 1st, 4th, 8th, 12th and 14th, 62; Joynt, 4 in 7th, 12th and 14th, 62; Joynt, 4 in 2nd, 4th and 8 in 12th, 71; Young, 4 in 1st, 74. Total, 438.

When fifth rounds were fired at 200 yards range, betting became 61 against Irish.

1,000 THOUSAND YARDS.

Clark, made 71, making 4 each in 8th and 9th and 3 in 12th. Scott made 74, 4 in 12th. Fisher 69, making 4 in 2nd, 6th, 9th and 3 in 3rd and 14th. Rathbone made 4 in 5th, 6th, 7th, 9th and 15th. Farrow, 69, 4 in 3rd, 5th, 7th, 9th, 11th and 14th. Brown, 67, 3 in 1st, 6th and 4 in 7th and 13th and 2 in 8th.

Of Irishmen—Rigby (John), 68; 4 in 1st, 4th, 10th, and 3 in 5th and 6th. Wm. Rigby, 68; 4 in 1st, 5th, 9th, 12th, and 3 in 13th and 14th. Miller, 67; 3 in 1st, 6th and 2 in 14th. Fenton, 4 in 7th, 8 in 12th. Joynt, 72; 4 in 4th, 10th and last. Young, 69; 4 in 3rd, 4th, 5th, 7th, 9th and 14th.

Grand total—Americans, 1,292; Irish, 1,280.

When the match was over cheers were given for the Americans and Irish teams. Col. Bodine was presented with a handsome bouquet by one of the ladies present. Addressing the gentlemen present and himself and the team, Col. Bodine said that he was very much pleased that they had won, but as representative riflemen he felt regret at the result from the sense that the riflemen of Ireland richly deserved victory this time, because of their exertions to secure victory, and he was sure the feelings he expressed were the feelings of the American people. Cheers were given for Earl Cowper, who made a short speech. He declared he never expected to see such scoring; he was glad the Irish team took this defeat so good humoredly. Only about 1,000 persons in the grounds.

There is much complaint at the manner in which the match was conducted, especially that there seemed more desire on the part of the makers that their cars take in the match, than that the riflemen should pass in front of the line of the match, and the press should be entertained, the press accompanied fairly, or the marksmen be decently attended.

**Mark Lane Outlook.**

London, 29.—Mark Lane Express says: Despite the somewhat too much rain, crops have made satisfactory progress and anticipations of good crops are becoming more confident. The supplies of the home grown wheat, both at Mark Lane and in the country, are insignificant. Sales were only practicable at a shilling decline. Growers yielded with reluctance, because of the abundance and relative cheapness of fine white foreign wheat, rendered millers somewhat indifferent to native. The weather is now of paramount importance; still, a feeling of depression is due, in a great measure, to the liberal imports into London, which were 125,000 quarters during the past fortnight. Trade during the week was confined to supply the immediate wants of millers, who were able to satisfy themselves at a decline of half a shilling per quarter on white and 61. on red descriptions. American shipments all favor buyers. Maize was firmly held for last Monday's full rates. Trade closed with a decidedly weaker tendency for wheat. The arrivals at ports have been moderate. The demand for wheat has been inactive, there being few sales, mostly for continental, at a decline of a shilling per quarter. Only three cargoes of maize were received, and owing to its activity 34, 33, was paid for mixed American.

**Chips from Colorado.**

Denver, Col., 29.—The Tribune's Special says: General Pope and Hatch had a conference in regard to the distribution of troops in southern New Mexico. They agreed to scatter the soldiers in small detachments over the entire exposed territory, and give General Bull 900 men for active service.

This afternoon a shooting affray occurred at Benna Vista, resulting in the death of a gambler named Hecdo Brown and probably fatally wounding Corley Frank, another gambler. The shooting was caused by a dispute over a game of cards.

The Leslie extension of the Denver and Rio Grande Railway was completed to Malta at noon, to-day, three miles from Leadville. Cars will run to Leadville within ten days.

**Crayfish in Illinois.**

St. Louis, 29.—A Republican's special from Warsaw, Illinois, says the levee which protects the bottom lands in this county broke last night, and the water is pouring through crevasses 200 feet wide. All wheat and corn and other crops will be lost, and 18,000 acres of land will be overflowed. The people are engaged in getting their live stock off the bottom lands.

**Chicago Still Growing.**

Chicago, 29.—Superintendent of Census Wright reports that the latter returns show so far exceeded the estimates that the actual figures in hand at the close of office hours, to-night, add up within a few hundred of 450,000 as the population of Chicago. Other returns will increase this total, but to what extent is not known.

## THE STUDEBAKER WAGON AND CARRIAGE FACTORY AT SOUTH BEND, IND.

Every Person Visiting Salt Lake, During the July Holidays.

Should Examine the Studebaker Improved Wagon.

And Sign Their Names for the Prize Gift Wagon.

Which Will be Given Away, October 6, 1880.

Tickets Free.

Main Repository, Wabash Avenue, Chicago.

Salt Lake City Branch House, 33 and 35 Main Street, Salt Lake City.

The Studebaker Brothers' Manufacturing Company have established a Branch House in Salt Lake at Nos. 33 and 35 Main street, where they have a full line of everything on wheels of their own manufacture, and to parties contemplating purchasing a vehicle of any kind, we cheerfully recommend their goods as being unequalled for everything that constitutes a perfect wagon.

The Branch House will always have in stock every size of wagon from a 2 1/2 to a 4 inch, cast or steel wheel, and freight wagons from 3 1/2 to 5 cast or steel wheels, built with freight boxes or one beds, for mules or bulls with all the latest improvements. They have ample facilities for filling special orders for the above line of wagons and will build wagons of any kind and size or style according to specification. After making the matter a special study they have procured a wagon for Utah which cannot be excelled. It is worth the time spent in examining the stock of wagons, carriages and harnesses in the Studebaker establishment, the styles being simply unique.

**THE PRIZE GIFT WAGON.**

To each gentleman visiting the House, will be issued a ticket, numbered to correspond with the register list, which will entitle the holder to one chance in the celebrated Prize Wagon, built of native Indiana timber, and varnished to show the nature of the material. This wagon is pronounced by experts to be the finest wagon that has run on Utah soil. It will be disposed of by lottery, on or about the 6th of October, by a committee of well known citizens who will take entire control and see that all interested are properly represented in the drawing. All persons should see that their names are on the great register, as all names in the end will be arranged alphabetically under the name of the city of the signer, thus furnishing Utah with a directory, in which you will find the name, address and occupation of all signers of the register.

REASONS WHY THE STUDEBAKER WAGON IS PRE-EMINENTLY THE BEST WAGON ON WHEELS.

First—It is made of the best selected Indiana timber, the same being cut at the proper season of the year, piled under sheds, properly dried, and allowed to remain there from three to five years.

Second—The wood work, thoroughly seasoned, is shapely by the latest improved machinery, and put together by the best Wagon Mechanics in the world.

Third—Our Patent Beveled Elged Projecting Tire saves the point on the felloe, and conserves the wear of the felloe from wearing when running in a frozen rut or on a rocky road.

Fourth—The Thimble Skeins are made of select iron, and, therefore, do not break.

Fifth—The Skeins are set by a patent Skein Setter, which takes the exact pattern of the skein to which the axle is to be fitted, thereby making a true fit and a perfect running wagon.

Sixth—It is the only wagon in which the Slope Shoulder Spoke is used, hence our wagons have the best wheels in use, and do not have to be refitted (which is generally the case with other wheels), but wear longer than any other part of the wagon.

Seventh—The only wagon made that has the box pressed into the hub without a disc, which is done with a machine of our own invention.

Eighth—It took the highest award of merit and the Grand Medal at the Centennial Exposition, and the Silver Medal at the World's Great Fair at Paris, for excellence of material and superior workmanship.

Ninth—The Studebaker Brothers are practical workmen, attend to their business personally, and do not employ a cheap man, as is generally the case in large factories; hence the superiority of their work over all others.

Tenth—It is the Best Wagon when new, and good when old. Freighters and contractors will tell you so. Dealers who have sold them will tell you so.

Eleventh—They carry the largest stock of seasoned timber of any firm in the world, having at all times wood stock enough on hand of their own cutting and selection to build from 80,000 to 100,000 wagons, consequently purchasers can at all times depend on the Studebaker Wagon having no green or unseasoned lumber in it; hence it is the most reliable wagon sold in Utah at the present day.

Twelfth—It is a well known fact that almost all wagons have seasons, that they are very poor one year and better the next, hence they are not reliable. This is caused by the manufacturers not keeping up their stock of seasoned material, and if they have a good demand for wagons one year they are obliged to use partially seasoned timber, hence their wagons are poor.

Thirteenth—This can never occur with the "Studebaker," as they carry stock enough for four or five years' run at all times, and each season cut enough stock to make up for what is used the preceding year.

MUSIC BOOKS, Octavo, Quarto and Folio, bound expeditiously at HERALD BINDERY.

August Flower.

The immense sale and popularity of Green's August Flower in all towns and villages in the civilized world has caused many imitations to be adopted, similar names, expecting to reap a harvest for themselves at the expense of the afflicted. This medicine was introduced in 1868, and for the cure of Dyspepsia and Liver Complaint, with their effects, such as Sour Stomach, Costiveness, Sick Stomach, Sick Headache, Indigestion, Palpitation of the Heart, Vertigo, etc., etc. It has never failed to cure any case of Dyspepsia. Two million bottles sold last year. Price 75c. Sample bottle 10c. my18

## A Tilt With Time.

Ladies in their attempts to baffle Time are bound to receive some wounds in the encounter. These, however, they can conceal, as far as the complexion is concerned, by a timely and regular resort to the use of "GLEN'S SULPHUR SOAP." Without obscuring the pores, or in any way injuring the health of the skin, it removes from the surface pimples, redness and the various disfigurements caused by increasing age or exposure to the sun. Beware of counterfeits. See that "G. N. CARTERSON, Proprietor," is printed on each box, without which none is genuine. Sold by all druggists at 25 cents; three cakes, 60 cents. Time touches the hair as well as the complexion. But the unsullied old face can be defied here, too, with "Hill's Instantaneous Hair Dye," which renews the tint of youth on the grizzled brow of age. It is the cheapest and safest dye in use.

Pleasant, Wholesome, Freely Three applications that apply to HALL'S HENRY or HENRIETTA AND TAILOR. PINK'S TOOTHACHE DROPS Cure in one Minute.
